3. Crisis Engineering

by Marina Nitze, Matthew Weaver and Mikey Dickerson

WHAT IT IS
These are the people who rescued HealthCare.gov, and they break down what to do when systems fail and the playbook stops working.

WHY IT MATTERS
Markets break, deals blow up, desks get chaotic, and this teaches you how to stay clear-headed when everyone else is panicking.

2. The Infinity Machine

by Sebastian Mallaby

WHAT IT IS
It's the story of Demis Hassabis and DeepMind, and it shows what's actually happening inside frontier AI: the talent wars, the compute costs, the breakthroughs.

WHY IT MATTERS
You want to understand where this technology is headed before you walk into an interview.

1. AI for Good

by Josh Tyrangiel

WHAT IT IS
It skips the hype and shows how real people are using AI right now to make sense of messy data and get better results, from Operation Warp Speed to hospitals and classrooms.

WHY IT MATTERS
That's the skill banks want: using AI to sharpen your judgment, not replace it.
